

## **COMPANY'S PROFILE**

### **INTRODUCTION:**

**ALDHABI FALSE CEILINGS CO.** was established on 2003, we started as the sole license for manufacturing GRG tiles for GSP CO. UK.

We managed to supply our Tiles all over the Egyptian Market. Our commitment to excellence allowed us to perform contracting services to many prestigious and renowned clients. The following projects are samples from our contracting & supplying our manufactured tiles services performed across Egypt:

1. Cairo International Airport Hall 2 & 3
2. Children's Oncology Hospital
3. Administration Buildings in Smart Village
4. Smart Language School in Smart Village
5. City Stars Mall: Phase 1

Photos of the projects are enclosed.

### **COMPANY OVERVIEW:**

Since our inception in 1998, we managed to develop our corporate brand name by focusing on value-adding business strategies.

As of 2018, Al-Dhabi is now comprised of two subsidiary companies: Al-Dhabi Contracting Company and Al-Dhabi False Ceiling Company. We established our new

factory in Badr City & started manufacturing the hanging system for Gypsum Boards & dry wall partitions.

At the same year and through our long lasting business relationships, we have managed to become the sole licensee in Egypt to manufacture Hunter Douglas Netherlands false ceiling products.

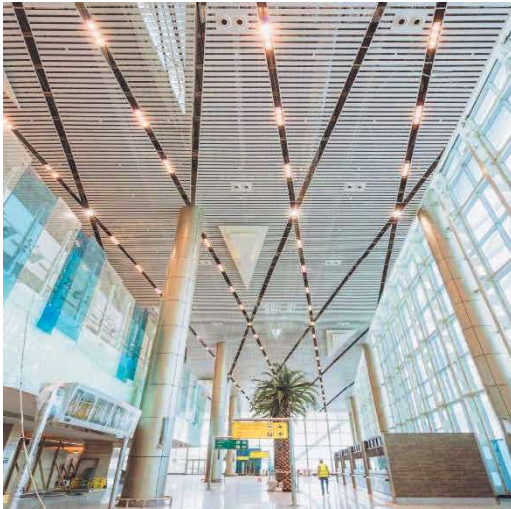

Both of our plants are solely dedicated to manufacture Hunter Douglas metal tiles & strips and GSP Ceilings GRG ceiling tiles. In addition, we also produce our own metal profiles for gypsum ceilings and drywall metal systems.

### **Our MISSION:**

Our aim as a specialized company is to manufacture the highest-grade interior finishing products according to the highest global standards and to provide qualitative contracting services for the contracting and construction industry in Egypt and the MENA region. Our engineering and business strategies allow us to produce and deliver excellence to our clients by utilizing our experienced human resources as well as deploying the latest technologies in our work process.

### **Our VISION:**

**ALDHABI FALSE CEILINGS CO.** works towards becoming a self-reliant manufacturing and service provider for interior-finishing projects. Our self-reliance strategy allowed us to ensure quality of products delivered associated with quality installation and contracting services set forth by our company in accordance with global standards.

### **3. Countries working in:**

**ALDHABI COMPANY** is currently working in Kenya, Togo & Ethiopia. We are focusing on East Africa market.

**KENYA:** We made an export contract with EINasr Export & Import Company to facilitate selling our goods to different clients in Kenya through them. We plan to export 5 FCLS per year.

**TOGO:** We are currently negotiating export deals with different customers. We submitted an offer for the Regional Economic Development Agency (REDA) and it is in the evaluation stage.

**ETHIOPIA:** We are currently exploring the market, we made lots of meetings with different consultants' offices & designers, and we are expecting to have orders from 5 to 10 containers per year.

Address: 250 Fedan Area, Plot No 213, Cairo, Egypt

Tel: +20-1227729995

We have 50 labors currently working at our factory for one shift and we can make it two shifts if needed.

We have the management and administrative staff in our **Head Office** located in:

32 Obour Buildings

Saleh Salem Street

Cairo, Egypt

Tel: +20-220824278

Fax: +2020824147

**Our Manpower for the Project is:**

### **Company Manpower**

<b>Title</b>	<b>No.</b>
Project Managers	6
Construction Managers	4
QA/QC Engineers	2
Site Engineers	14
Arch. Co-coordinator & QC Engineer	1
Chief Architectural Engineer	1
Accountant	2
Site Foremen	14
Store Keeper	6
Purchase / Gate passes	6
Electricians	5
Drivers	4
Office Boy	10
Scaffolders	20
Skilled Workers	300
Helpers	300
<b>Total</b>	<b>695</b>

## **5. MACHINERY:**

**Our factory** is equipped with the following:

### **1- Five (5) Roll forming machines for Gypsum Metal Profiles:**

- a. One machine for side angle
- b. One machine for furring channel
- c. One machine for different types of Runners 52,77, & 102 mm
- d. One machine for different types of Studs 50, 75, 100 mm
- e. One machine for Main channel C38

All our Roll forming machines can manufacture different thicknesses of steel sheets from 0.4 – 0.9 mm

Our standard thickness is 0.6 mm with galvanization 120 gm/m<sup>2</sup>

## 2- Hunter Douglas SU1 Rolfomerline producing 7 types of linear metal ceilings

- 30B, 80B, 130B, 180B
- 84R
- V100, V200

All our raw materials are pre-painted coils imported directly from Hunter Douglas Netherlands.

- Strips thickness are 0.5 & 0.6 mm

## 3- Gypsum Tiles Machines:

- 12 press machines for manufacturing glass reinforced gypsum tiles (GRG)
- Standard dimensions are 600 x 600 mm, thickness 9 mm in the middle, 19 mm on the web.
- Perforated tiles are 12.5mm thickness
- Tiles are manufactured under pressure & are pre-stressed.
- Manufacturing nearly 31 types of GRG tiles.

## **6. EQUIPMENT**

### **Company Equipment List**

Serial	Equipment	Model	No.	Status
1	Compressor 250 CFM	Atlas copco	1	owned
2	Concrete Drill Machine 6-16 mm	Hilti	10	owned
3	Concrete Drill Machine 6-12 mm	Bosch	10	owned
4	Wooden Drill Machine	Bosch	12	owned
5	Wooden Saw Cut Machine	....	6	owned
6	Grinding Machine 5"	Bosch	25	owned
7	Level Machine	Wild	10	owned
8	Laser Level Machine	....	12	owned
9	Theodolite Machine	Wild	2	owned
10	Tool Set ( Miscellaneous)	....	300	owned
11	Scaffolding	m <sup>2</sup>	5000	owned
12	Generators 50 KVA	Honda	2	owned
13	Wooden Planks	m <sup>3</sup>	30	owned
14	Shuttering Material	m <sup>3</sup>	200	owned
15	Vehicles	Different	5	owned
16	Pick Up	Different	2	owned

## **7. BANKS:**

We are currently dealing with two Banks:

### **Suez Canal Bank**

12 Baghdad Street

Heliopolis, Cairo, Egypt

### **Ahly Bank of Kuwait (ABK)**

Heliopolis Branch

Cairo, Egypt
